

## CRAFT IT UP

BY LUCY

Do you ever find that you don't have enough money to buy a birthday present for your friend? Or that your room needs a total makeover before your friends come for a sleepover? Well that's where crafting comes in! You can use crafting in any way: presents, toys, you name it.

## So Simple

It's so easy. You can make bookmarks, wreaths, pencil toppers, sachets, key chains, fossil stepping stones, baskets, wind chimes, printed bags, pressed pictures, candles, and so much more. Just look around the house, and we guarantee you'll find some way to craft up any thing!

Duct tape is made of three layers. The top coat is a plastic coating that makes the tape water proof. The middle is cotton. This makes it strong and able to cut. The bottom is a sticky adhesive made of rubber.

## Duct Tape Disco

Using duct tape is one of the fastest ways to craft, but it's very easy to mess up. Make sure you don't get in a sticky situation! As soon as it sticks to almost any surface, all it needs is the swipe of a hand to form a strong bond.

## Unique You

You can make anything, and I'm positive that you'll be the only one who has it. You can create your own bird houses, jewelry boxes, party favors, candles, jewelry, baskets, journals, bobby pins, necklaces, belts, purses, T shirts, socks, and almost anything else. You can use books, websites, and articles to find the unique you.

## Think Theme

Whether it's what you wear, to what your room looks like, you should probably pick a theme! It could be Star Wars or Frozen. Black and White, or Pink and Blue. Your style is all that matters. You can make most of your crafts with a theme so everything matches. You can also redo your bedroom and pick a theme to sleep in.

## Wrapping Up

So the next time your piggy bank is hungry, choose a craft and...  
CRAFT IT UP!
