Assignment Plan
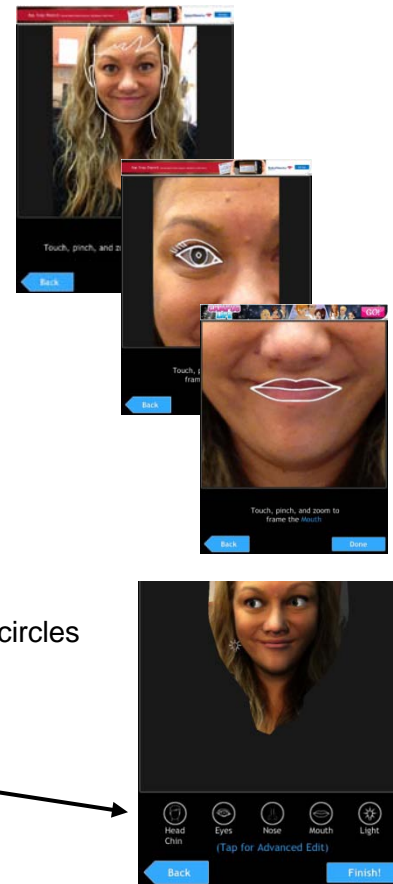

Wax Museum Animation with the Morfo App

Objective: To create animated historical figures for speeches created by 4th graders

Tips: If an ad appears at the top, ignore it. If an ad appears in a pop up window, just cancel it. Photos will work better than 2D pictures or drawings

Create Your Video

1. Open Morfo
2. Choose CREATE A NEW FACE
3. Tap TOUCH HERE TO TAKE A PICTURE
4. Take a picture of yourself (make sure you have a slight smile with your lips closed so your teeth aren't showing)
5. Tap USE
6. Tap DONE
7. Touch, pinch and zoom to make the outline of the animated head to match your photo
8. Press DONE
9. Frame the left eye
10. Press DONE
11. Frame the right eye
12. Tap DONE
13. Frame the nose (be sure to line up your nostrils)
14. Tap DONE
15. Frame the mouth (try to match your lip size and the line where your lips close)
16. Tap DONE
17. Adjust the HEAD/CHIN, EYES, NOSE, MOUTH and LIGHT by tapping on the circles below the animation
18. Tap FINISH
19. Tap on RECORD
20. Tap the RED SQUARE to start recording your speech
21. Tap the RED SQARE when you are finished recording
22. Tap SHARE
23. Tap SAVE A VIDEO
24. The video will render and will be saved to your camera roll

Move Your Video into Student Shared

1. Open iFiles
2. Navigate to the folder in the _iPadShare where your teacher wants you to save your video
3. Press the PLUS sign at the bottom
4. Choose FROM LIBRARY
5. Choose CAMERA ROLL
6. Tap the video you want
7. Tap USE
8. Refresh the iFiles folder using the refresh button at the top right
9. Press and hold your file and choose RENAME to rename it
