

## LABEL BOX

**COST:** FREE

**Folder on student iPad:**

**PRODUCTIVITY**

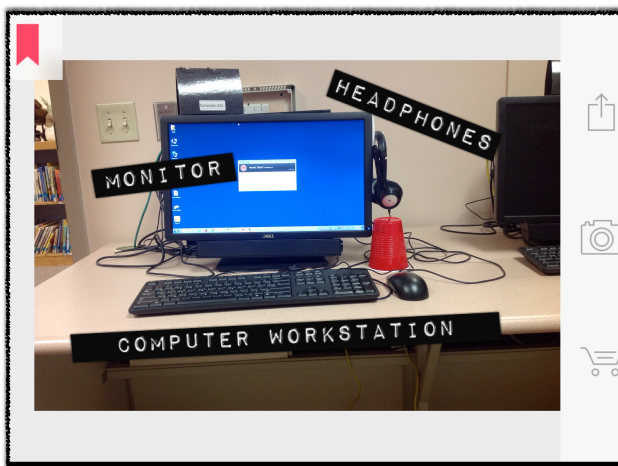

**On K-2 student iPads**

**Web Version:** NO

**Accounts:** None

**Publishing and Sharing:** Email, camera roll, Twitter

**Teacher Use:** Use to label photos for a variety of projects

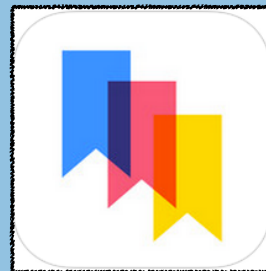

### SUMMARY:

Easily label and decorate photos with an assortment of colorful, easy-to-use labels, stamps and timestamps.

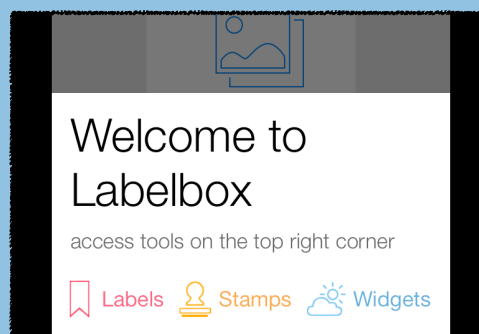

### Ideas for the Classroom

- Label photos to help students follow directions or identify parts of objects
- Let students label objects for science, vocabulary or social studies projects
- Label contents of bags of equipment that need to be returned or inventoried
- Let students take photos of their projects and label them for portfolios

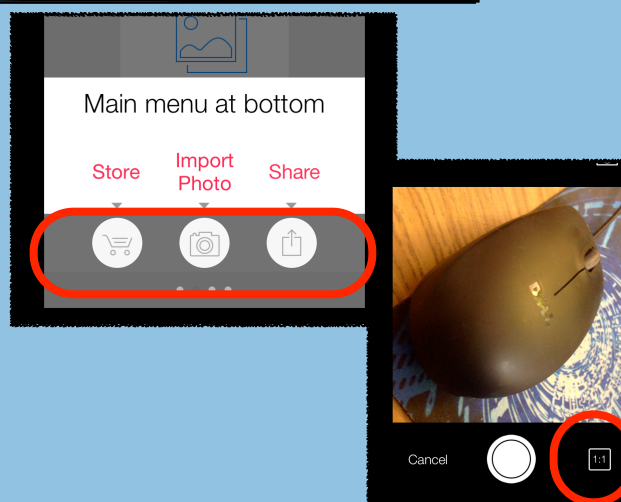

- Open the App from the PRODUCTIVITY folder and choose LABEL BOX

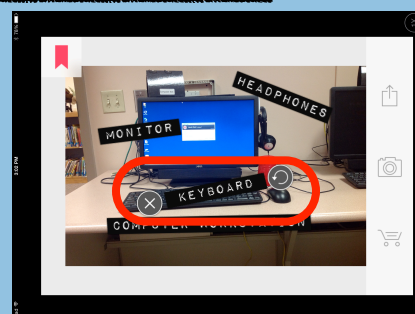

- The first time it opens, you may get push notification and location alerts, choose NO or DON'T ALLOW. A welcome screen and a tutorial will follow.

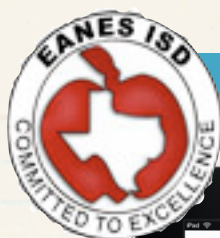

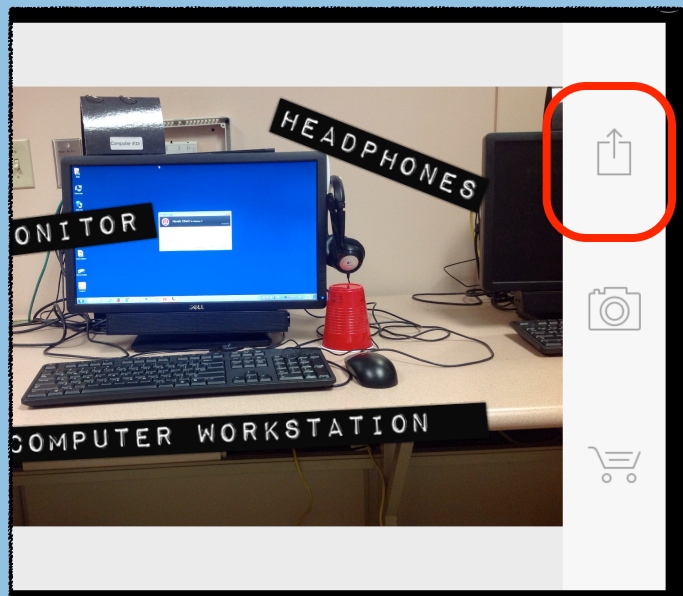

- The main menu is at the bottom of the screen. Choose IMPORT PHOTO and ALLOW ACCESS if prompted. Choose a photo from your camera roll or take a new photo.
- You can change the aspect ratio or take a photo in landscape or portrait mode.

- Once the photo loads, press the ribbon, stamp, or cloud icon and choose a style.
- Press and drag on your picture where you want the label to go.
- Press the X to delete it or use the rotation icon to stretch or rotate it.
- You cannot edit the words you type. Just delete the ribbon and start over.
- To move the label ribbon just press and drag it.

- Press the SHARE SQUARE and choose SAVE IMAGE to save it to your camera roll.
- To start a new project, press the camera icon and start over again.
