

A Memory foam Staircase

for Lane

I am so ready to be upstairs
downstairs, hooveeee it is boring down here

But I seem to be forgetting the process
of stair climbing

Because each time my foot steps I sllllink into the stair

like I'm a puppy x climbing on marshmallows

Still, I will persist

Because upstairs will be so fun
once i can get there

Step...squish

Step...squish

Step...squash squash squashy squashh

Uh. I can feel all the softness
rolling over my toes

And while I remember that upstairs would be fun

The truth is,
All I really want to do

Is lie down here and have a quick cozy nap
(please don't step on me)
